Chapel Hill High School is pleased to announce our **Speech and Debate Magnet Program!**

The purpose of this program is to offer an academic elective, Speech Forensics, that compliments our honors and advanced placement courses. The skills acquired in this course will transfer to all areas of life, including:

1. Increasing their confidence and leadership skills
2. Improving their oral and written communication skills
3. Exploring viewpoints that are different than their own
4. Developing strong research skills that will support their college and work success
5. Becoming more socially conscious

These skills will also serve as a foundation to other Advanced Placement courses, such as AP Seminar and AP Research, which complete the AP Capstone diploma requirements. Incoming magnet 9th graders will take Speech Forensics I, a course that introduces them to the nuances of public speaking and human communication (no competition required).

Our school also has a **competitive speech and debate team**. As a member of the team, students will have the opportunity to compete in local, state and national competitions.

Below is a list of CHHS's current Speech and AP courses.
